## AeroForce® X

### Intelligence meets Endurance

AeroForce® X is our innovative turnkey solution, specially tailored to the demanding requirements of intelligent surveillance and reconnaissance (ISR).

The modular MALE UAS can be configured flexibly for a wide variety of missions, from maritime surveillance to complex international operations. With state-of-the-art sensor and mission system technology from our company group, AeroForce® X guarantees maximum precision, range and endurance as an ITAR-free configuration – even under the toughest conditions.

## A wide range of missions not limited to

- Maritime Intelligence, Surveillance & Reconnaissance
- Pollution Surveillance
- Anti-Narcotics Surveillance
- Search & Rescue
- Border Patrol
- EEZ Monitoring
- Fishery Patrol
- Anti-Piracy
