

## Shipping of Parts to Aerodata

Dear Customer,

To provide you the best service and support, Aerodata asks you to contact us before shipping of any parts. We provide you a Return Merchandise Authorization (RMA) Number which helps us for a faster custom clearance and a smooth handling of your request.

Before shipping please contact your personal Aerodata Support Manager or send an email to [fis@aerodata.de](mailto:fis@aerodata.de).

To avoid delays on custom procedures, please do not ship parts without former contact, we can provide you information for your shipping procedure.

Please do not forget to add your RMA number and the name of your Aerodata contact person to every shipping package.

Thank you very much  
Your Aerodata Support Team
